IT IS A GOOD ADVERTISING MEDIUM. Many influential papers of the world noticed this work in the highest terms. For example, The Daily Mail says:-

Yet another "Who's Who!" and this time from Japan! The reader is apt at first to regard it as a curiosity, as a sign that the East has now become Western practically almost to the last detail. But Who's Who In Japan' is far more than a curiosity; it is a very sound and useful reference book. It is printed in English and contains brief biographies, on the accepted model of prominent men in Japan. Mr Kurita is a skilful editor and has done his work well.

It is announced in the London Gazetee that the King has been graciously pleased to approve of the grant of the Victoria Cross to the following officers, non-commissioned officers, and men:-

CAPTAIN GARTH NEVILLE WALFORD, Brigade Major, Royal Artillery, Mediterranean Expeditionary Force. . .

On April 26, 1915, subsequent to a landing having been effected on the beach at a point on the Gallipoli Peninsula, during which both Brigadier-General and Brigade Major had been killed Lieutenant-Colonel Doughty-Wylie and Captain Walford organized and led an attack through and on both sides of the village of Sedd-el-Bahr on the Old Castle at the top of the hill inland.

The enemy's position was very strongly held and entrenched, and defended with concelled machine-guns and pompoms. It was mainly due to the initiative, skill, and great gallantry of these two officers that the attack was a complete success. Both were killed in the moment of victory. LIEUT, JOHN GEORGE SMETH

DARING FEAR OF ITALIAN ALPINISTS.

London, Aug. 9, 4.25 a.m.

A telegram from Rome states that both Italians and Austrians are

fertile in expedients in the warfare of surprise attacks.

A communique records a daring feat of the Alpinists in the Tonale district. Climbing right along the difficult ridge or rocks towering above Val del Monte they surprised at dawn on Saturday une Austrians entrutched to the rear of Ercavallo Peak, capturing many bombs and other material hastrly abandoned in the trenches. On the same day can other enemy force entrenched to the north-east of Ercavello were driven from their positions by fire from mountain guns hoisted, at a height of 10,000 feet to Ercavallo rocks.

The Italians in Cadere, after several days artillery preparation, successfully advanced along Sexten Valley and, driving back the enemy,

muched a front extending from Martenero to Burtestal.

The enemy on the Carso are endeavouring their utmost to impede the Italian approach works, and are constantly delivering attacks and even attempting to place movable wire entanglements in front of the Italian lines.

GERMANS CHECKMATED AT EYERY POINT.

LONDON, Aug. 6, 5.45 p.m. The Germans, says a telegram from Paris, are showing considerable activity and are evidently desirous of keeping the French busy in the different sections. All the German movements have been easily repulsed. The Crown Prince's army in Argonne has developed more intense hand-grenade actions supported by artillery. This was especially the case last night around Hill 213. A communique adds that the Germans even attempted to debouch, but were immediately checked by the French fire. On two occasions the enemy attacked us along the heights of the Meuse, but were defeated by groundes and artillery.

RUMANIA'S ATTITUDE.

German Press Angry.

LONDON, August 7, 3 a.m. The Italian papers are very interested in the "demarche" of the Allies. In Athens it is said there is a desire for the opening of the revision of

the treaty of Bukharest, as it is absolutely necessary. The "Tribuna" learns that Serbia is disposed to cade to Bulgaria the region around 1stb in debatable Trin, south east of Uskub. It is also convinced that it is essential there should be a Rumano-Bulgarian entente with

The German Press is very angry with Rumania, and declares her neutrality has been consistently malevolent. Her intervention on the side of the Quadruple Entente is certainly to be expected.

THE POPE AND PEACE.

A New Step.

LONDON, Aug. 7. 4:10 a.m. The "Daily Telegraph's" home correspondent states that the Pope is about etc., Dinner Services, Crockery, Glass and to take a new step in layour of peace, invoking especially the co-operation of

RESULT OF GERMAN PIRACY.

A Crew's Sufferings.

LONDON, Aug. 7. 4.10 a.m. The steamer Midland Queen has been sunk. The crew were for 72 hours in the open boats, without food, before being rescued, and they included the engineer's wife and a child 18 months' old.

GERMANY PREPARING TO CALL MEN OF FIFTY TO THE COLOURS. | the German coast.

LONDON, Aug. 7, 7.50 p.m. The German Government, says an Amsterdam telegram, is negotiating with the political leaders for the passage of a Bill calling to the colours men up to fifty years of age. Such a decision, if carried, will produce the profoundest effect throughout Germany, but there is little doubt that it would be adopted by the Reichstag.

NEW FRENCH COMMANDER-IN-CHIEF.

The Famous General Sarrail.

LONDON, August 6, 9.45 p.m. A Paris telegram states that the Gazette announces that the famous General Sarrail has been appointed Commander-in-Chief of the French force in the Dardanelles.

General Sarrail distinguished nimself in the battle of Marne, by the defence of Troyon against the Crown Prince's furious and repeated attacks. He has defended Verdun skilfully during the last eleven months. He will be succeeded by General Humbert.

ALLIES ENDEAVOUR TO SECURE UNITY IN THE BALKANS.

LONDON, August 7, 9.30 p.m. The Allies, says a telegram from Nish, are conducting important negotiations with the Balkan States with a view to securing agreement among the latter and then an entente between the Balkans and the Allies. The Allies have addressed a collective Demarche to the Serbian Premier yesterday that was entirely friendly in tone, hoping that the Balkan settlement will assist in bringing the final success of the Allies nearer.

THE TURCO-BULGARIAN ENTENTE.

German Version Not Confirmed.

LONDON, Aug. 7. 9.30 p.m. The German versions of the Turco-Bulgarian entente, implying a settlement Samblinds (new). Lady's Carrying Chair, of the Dedengatch Railway question, is not confirmed, says a telegram from Sofia. In authoritative quarters it is affirmed that no progress; has been made owing to the Intest exorbitant pretensions of the Turks in consequence of the German success in Poland, which the ruling Turks consider they helped materially to secure by their effective resistance of the attempt to force the Dardanelles, and the Caucasus mountains. In view of this situation the Turks are disinclined to make any concessions.

ITALIAN OFFENSIVE VIGOROUSLY MAINTAINED.

Enemy Completely Repulsed:

LONDON, August 6., 12.55 D.m. Reuter's correspondent at Rome says that an Italian offensive is vicorously maintained in the various sectors. The Austrians violently counter attacked the Italian centre on the Carea platear hoping to arrest their advance. A communique says that the Italians withstood the shock and then attacked the enemy. fiercely and stormed a most extensive entrenchment dominating the entrance to an important, wood and a vital height. The enemy last night made most desperate efforts to regain the entrenchment but were completely repulsed.

FIGHT IN THE AIR.

LONDON, August 8, 5 a.m. A communique from Rome states there is nothing important on any front. but the Italians have progressed somewhat on the Carso, taking 100 prisoners. An Italian airship bombed the camps around Lake Doberdo and another bombarded Operna Railway On retiring it was attacked by an Austrian

semplane, which dropped three incendiary bombs from above. The simbip's

fire put the semplane to Hight. Both airsbips returned undamaged.

TELEGRAPH.

ON THE EASTERN FRONT.

THE FIGHTING IN POLAND.

Loxpon, Aug. 6, 8,45 p.m. Further particulars with regard to the capture of Warsaw are given in to-night's Berlin communique, which says that after the Russians had been expelled from the outer and inner lines of tortifications, without any damage being done to the city, they retreated to Praga, a suburb on the right bank of the Vistula. Tremendous battles, however, are still raging to the north and south of the capitals, the Russian rearguards evidently attacking gallantly and fiercely. The Germans only make the vaguest chains, not mentioning any captures.

RUSSIA'S . OFFENSIVE

The Berlin communique laconically, records cavalry battles at Courland (one of the Baltic provinces), and hints at the investment of Novogetrgievsk. It admits Russian attacks on the Narew front and also in the south-eastern theatre of operations.

RUSSIA DETERMINED TO BE VICTORIOUS.

Landon, Aug. 6, 7.15 p.m. The evacuation of Warsaw has caused pain to Russian hearts, but the opinion is unanimous that it only strengthens the determination of the Russians to pursue the war to a victorious end. The newspaper Retal affirms that so long as the army is intact we can confidently face the Inture. The Bourse Gazette says that Germany will exhaust her strength in vainly seeking to deal Russia a mortal blow. Another newspaper emphasises the fact that Russia cannot lose Polard and the Baltic provinces without renouncing national problems and accepting the condition, of a semi-Asiatic State.

Messages from Warsaw prior to the execuation declare that the police, with their chief, are remaining to the last day. German airmen are daily dropping bombs, and provisions are at famine prices. A party of Uhlans, who crossed the Vistula, were captured. The Germans advancing were meeting with immunerable fires and were preceded by detachments of military firemen. Jirardoff, Groetze, and Bionie were blazing when occupied by the enemy.

WAR NOW ONLY BEGINNING IN EARNEST.

Opinion of Russian Military Experts.

Loxnon, Aug. 6: 10.45 p.m. Owing to the destruction of three bridges at Warsaw the Germans are confronted with the task of crossing the Vistula, which here is 350 yards wide. The Russians still occupy the suburb of Praga, on the right

bank of the river. Surprise is expressed in Petrograd at the German delay in occupying Warsaw. Some attribute this delay to the declining strength of the German armies, but it is now also believed that the Germans did not desire to drive the Russians from the capital, but would have preferred to force them to fights there or to surround them. General von Hindenburg had hoped to drive the Russian Narew army southward on to the top of the army opposing General von Mackensen, but now the Germans may be planning a larger envelopment from the extreme

Developments are awaited with the keenest interest," as the Germans have 350,000 men towards the Dwina.

· Russian military experts to-day emphasise the fact that the war is now only beginning in earnest for Russia. They say the Allies on the west, after eight months' comparative callin, have greatly reinforced themselves. The Russian army understands and highly appreciates the assistance of the Allies, who are providing an unexampled blockade of

STUBBORN FIGHTING.

London, Aug. 7, 2.55 a.m. A Retrograd communique reports that the Germons were repulsed on the 5th between the Dwina and the Niemen, where the situation is

There was desperate fighting all Wednesday night and Thursday on the left bank of the Narew on the roads Rozan and Ostrolenka to Ostrow. A series of vigorous Russian counter-attacks, held, up the enemy on an extensive front at a distance of six miles from the river. The Russians captured a few hundred prisoners. Violent fighting here

All is quiet on the middle of the Vistula since the Russians reterated to the right bank. Warsow was evacuated in order to save the city a bombardment. The fruitless attempts of the enemy to extend the zone of occupation only continued in the Hatzeevitze district be-

tween Warsaw and Ivangorod. The battles on the 5th between the Vistula and the Bug were con tested most stubbornly. The enemy concentrated his fire "by massed artillery, and the Russians were obliged to retire northward. The Austrian communique simply mentions the continuance of pursuit and the battles between the Vistula and Bug.

PROGRESS IN CARSO.

LONDON, Aug. 7. A Rome communique says:--There has been nothing important on any front, but the Italians progressed somewhat in Carso, taking 160 prisoners.

ITALIAN DIRIGIBLE LOST.

LONDON, Aug. 8. An Italian dirigible which was attacking Pola, where recently there have been many successful raids, was brought down by gun fire and the crew of six was captured.

LACONIC AUSTRIAN COMMUNIQUE.

pursuing the commendable course of allowing more for depreciation, and for the past year an average deduction of 9.09 per cent, was made, which reduced the actual average dividend paid to 10.38 per cent. Against this, however, there must be faced the lowrates during the lean years; the average rate for ten or eleven years been 5.37 per cent., which is not adequate for such a hazardous investment. The return in the case of twenty-five passenger lines with 5.1 million tons of shipping at an average book price of £11 15s, per ton gross, is 3.26 per cent, on a capital of 301 million sterling, as compared with 10.37 per cent in the previous year and 7.79 per cent. two years ago. These companies, however, employ in their business as working capital large reserves built up in previous years, and if these be included in the capital on which dividends should be earned, the rate of return is not more than 5per cent. It will therefore be seen that, however rosy the situation seems | and the other at Wuchow. at the moment, capital is not by any means getting an undue share of the

Guards (Central Police Station) All enemy attacks on Kovno and Ossowiecs were repulsed on August 6th and were not renewed on the following day. There have been obstinate rearguard actions to the left of Vieprez. We captured hundreds of prisoners in the counter-attacks, and we successfully exercised pressure on the enemy's advance left of the Bug."

GREAT GALLANTRY OF A BRITISH OFFICER.

London, August 8. Details of the heroic death of Captain Smirt are supplied by comrades. He volunteered as a bomb-thrower at Festubert, and advanced coolly, heedless of the showers of shells. A piece of shrapnel shattered his right hand, but he did not falter, and kept throwing bombs with his left hand. When asked by an officer to retire as he was wounded, he simply replied "Nothing makes any difference to me." He continued to advance and bomb the enemy furiously till he fell dead. His commades were always most proud of "Hardy," and suspected he was an ex-officer

RUSSIA'S MAGNIFICENT RETREAT

FURTHER DETAILS OF THE FIGHTING.

LONDON, Aug. 8, 3.15 p.m. The Russian retreat was very slow and very orderly. The Germans made the most desperate thrusts to cut off the Russian retreat but were invariably met by a wall of steel which also showed wonderful clasticity, here and there Talightly dented but never broken! The bombard-Now, these 150 wicked outlaws are being ment of the enemy continues. The German losses here and at Ostowiecs sent to just this place and will arrive here must be tramendous, especially as their efforts have been quite abortive.

The battle of Narew is perhaps the most intense and the bloodiest battle port, will they be refused a landing as was of the war. The Russians are resisting marvellously, the gallantry againt the heavy guns folling the whole of the German plan of envelopment. The titalic

German siege troops and Germans from Novogeorgievak say the situation nt Warnaw itself is unchanged. The Russians continue the bombardment of the town from Praga."

Battles in the southern area are almost stationary. The storm contres are now at Koyno and Narew.

A German war correspondent described the Germans as for two days con tinually hombarding before Warsaw, the artiflery of the whole German army being concentrated on a small space. The fury of the gunfire grew ever more intense, reaching its maximum on the second night. Besides the Bavariana there were Prussians, Wartemburgers, Wurtresses and Saxons, who were the first to reach the entanglements. The Russians, with inferior numbers. sustained an heroic defence, which permitted the retreat to be carried out splendidly. The Russians went back very gradually. It is fully conficued: that the Russians only left Warsaw an empty shell. The dismantling was most complete, even household utensils, if of any value, being removed.

THOROUGH EVACUATION OF WARSAW.

A Barren Victory.

London, August 3 The thoroughness of the evacuation of Warsaw is proved by the account of an American correspondent who left Warsaw on July 25th. He says that the Russian authorities on July 13th asked the British · Consul how many tickets he wanted for the British Colony. The news papers of Warsaw announced on July 15th that the evacuation of the city would begin on the 18th, but before then crowds were hurrying eastward on a thousand goods waggons which had been accumulated. The city was encircled with flames and giant columns of smoke, attributed to the burning of bridges and munition stores by the Russians. Russian aviators bombed the advancing Germans day and night throughout the week.

A telegram received at Copenhagen says the Russians are preparing to evaquate Kovno. The Governor has already sent his offices to Novolexandrosk, a hundred miles porth-east,

The Germans do not conceal their admiration of the valour of the Russians. Neither our numerical superiority nor our numerous batteries dismayed these brave soldiers who fell gloriously

GERMAN COMMENTS.

. The comments of the German experts are not too enthusiastic. As an instance, Major Morant asks why the chief end of all strategy, namely the destruction of the enemy's fighting power, should be given up for Warsaw.

Other papers manifest conflicting views regarding future operations. Some are saying that Warsaw and Ivangored constitute a new base for a continuance of the march eastward on a broad front; others that the possession of these cities will make possible the formation of new defensive lines, freeing troops, probably a million in number, for action in the west.

Russian correspondents anticipate that the German offensive eastward is not yet finished as onemy forces are now pushing towards Koyel, with the object of getting behind the Brestletovsk line, while there are other movements north, namely in the Louiza sector, threatening to guf the Petrograd line, and in the Baltia Provinces, where the Germans are apparently aiming not so much at Riga, which the Russians are evacuating, but at crossing the Dwina higher up.

Among the treasures to Moscow from the Baltin Provinces was a statue of Bismarck weighing 900 pounds, taken from the Kaiser's East Prassian estate...

VIEWS OF POLISH LEADERS.

A Petrograd message says that the Polish leaders recognise that everything commensurate with military prudence was done to save Warwiw. By remaining longer the troops would have imperilled the armies. Military experts anticipate that the fortress of Novogeorgievsk' will he defended to the last.

TO THE LAST BREATH.

A Polish member of the Council of Empire, speaking with emotion at a meeting of the Council, said that in the midst of their misfortune the Poles remembered that a long series of historic facts welded them into a people indissolubly united with the Russians, with whom they would straggle to the last breath.
